ABOUT ME

Motivated web developer looking for a role as front-end or full-stack web developer. I am eager to learn new things and build first-class web applications. Relevant skills include Problem Solving, Detail Oriented, Debugging, and more.

WORK EXPERIENCE

18/08/2014 – 14/12/2018 Constanța, Romania
WEB DEVELOPER SOFTELIO

Within a company focused on developing an application specialized in comparing, managing, and issuing insurance products, I fulfilled the following key responsibilities:

1. **Innovation and Optimization**: Actively participated in the development of new modules as well as the optimization of existing ones, contributing to the continuous evolution of the application to ensure an excellent user experience.
2. **Product Portfolio Expansion**: Responsible for the creation and implementation of new insurance products within the application, thus contributing to the diversification of available options for clients.
3. **Quality Management**: Conducted regular checks and promptly identified bugs, ensuring smooth application operation and providing users with a flawless experience.

The main technologies I used include **C#**, **ASP.NET WebForms**, **HTML**, and **CSS**, with a focus on back-end development. Through my involvement in these activities, I significantly contributed to the continuous development and improvement of the application, ensuring it maintains the high standards of quality and performance expected by its users.

15/12/2018 – 01/01/2020 Northampton, United Kingdom
ASSISTANT MANAGER AV TRANSPORT

01/01/2020 – 01/06/2020 Northampton, United Kingdom
WEB DEVELOPER FREETIMERS

I have gained significant experience in frontend development, where I successfully used the following technologies to develop responsive websites:

- **HTML**
- **SCSS**
- **Foundation**
- **JavaScript**

I actively contributed to the creation and development of the following websites, focusing primarily on frontend development:

1. **Durasteel Roofing Services** - https://www.durasteelroofingservices.co.uk/roofing
2. **McGees UK Marquee Hire Wellingborough** - https://www.mcgeesuk.co.uk/marquee-hire-wellingborough
3. **Lock & Load Self Storage** - https://www.lockandloadselfstorage.co.uk/

Through these projects, I was able to apply my frontend development knowledge and contribute to the creation of attractive, functional, and device-adaptive websites.

01/10/2021 – 23/09/2022 23 August, Romania
COMPUTER SPECIALIST "GEORGE COȘBUC" SCHOOL

Management and verification of IT equipment, but also software resources.
Searching for solutions and methods for optimizing education from a digital point of view.

26/09/2022 – 01/12/2023 Sibiu (Remote), Romania
WEB DEVELOPER QRMES S.R.L

In this role, I contributed to both the development of new features and the ongoing maintenance of the application. My key responsibilities included:

- **New Module Development and Maintenance**: Designed and implemented new features while ensuring the ongoing stability and functionality of the application through regular maintenance.
- **Bug Fixing and Updates**: Efficiently identified and resolved bugs, ensuring that the application remains up-to-date and runs smoothly.
- **Technologies**: Worked extensively with **Angular**, **TypeScript**, **C#**, **ASP.NET Core API**, **HTML**, **SQL**, and **CSS** to deliver robust front-end and back-end solutions.

17/01/2023 – CURRENT Romania
WEB DEVELOPER ALLIANZ TIRIAC

As part of the software development team, I was responsible for designing and implementing new modules, fixing existing functionalities, and creating technical documentation. My work focused on optimizing performance and user experience through the following activities:

- **Development and Implementation of New Modules**: Successfully created and integrated new modules using modern technologies, ensuring compliance with technical and functional requirements.
- **Enhancement of Existing Functionalities**: Optimized and refactored code for existing modules, contributing to increased efficiency and application performance.
- **Technical Issue Resolution**: Diagnosed and resolved complex bugs and performance issues, ensuring the stable and efficient operation of applications.
- **Technical Documentation**: Developed and maintained detailed documentation for new functionalities and technical processes, facilitating seamless transitions and collaboration across teams.
- **Technologies**: Primarily worked with **.NET**, **.NET Core**, **Angular**, **Oracle Database**, and **MongoDB** for developing back-end and front-end solutions.

EDUCATION AND TRAINING
